

Dear Hiring Manager,

With over eight years of hands-on experience in trading and investing, using platforms like Robinhood, ThinkorSwim, and Tastyworks, I bring a genuine connection to Robinhood's mission. I understand the consumer deeply—because I am one. The idea of joining Robinhood to improve the experiences of people like myself, helping them reach their financial goals, is a perfect fit for my passion and skills.

As someone who has navigated the highs and lows of investing, I know how empowering it feels to have the right tools and support at your fingertips. In my professional career, I've led projects focused on building intuitive, impactful products that address real user needs. For instance, I recently helped a client identify over \$100M in opportunities through an AI-driven strategy, guiding a cross-functional team to deliver solutions that genuinely improve user experience and meet business goals. This experience taught me the importance of aligning a product vision with user outcomes—exactly what I hope to do at Robinhood, supporting people as they take charge of their financial futures.

Robinhood's dedication to democratizing finance is what I value most, and I'm inspired by the chance to contribute to this mission. My experience in consulting and product management, combined with my perspective as an everyday investor, has prepared me to build tools that simplify investing and empower people to achieve their goals. I'm thrilled by the opportunity to help shape the future of finance for a growing community of users.

Thank you for considering my application. I look forward to discussing how my experience and insights can support Robinhood's vision of financial empowerment for everyone.
